Summary

I designed this minimalist laptop stand (mine is 14 inches).

[setup](#)

I designed this minimalist laptop stand (mine is 14 inches).

In addition to its minimalist design, what makes it special are the rear compartments for cable management and special guides for long cables such as chargers .

In the back, I've stored my hard drive and a USB-C hub to connect the laptop to my main monitor .

What do you think?

You have all the files separately, my printer is not very big and I had to make several cuts to be able to print the entire support :)
