Summary

I made silverware organizers to practice with Solidworks, and to custom fit my kitchen drawers

[Household](#) > [Kitchen](#)

Tags: [organizer](#) [silverware](#)

I needed to learn SOLIDWORKS, and organize my silverware and utensils drawers.

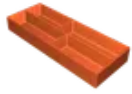

I made them short enough to print on my Neptune 4Max.

I cut them down to 2 sections or less to stay under 1/2 roll of filament (approx 460gm) to allow 2 per spool.

I started with 3mm walls at 15% infill, but they seemed flimsy with Elegoo Rapid PETG. I adjusted to 4.4mm walls and base at 30% infill, and they are more robust.

The 2 bigger sections are 405x156mm. The cheese knives section is 95x156mm.
