This is my first print I upload to Printables.com, it's a simple and minimal USB holder that has 8 USB slots, I didn't find anything I liked online so I created it.

The USBs have an offset of + 0.4mm on each side to prevent them from getting stuck.

P.S. I uploaded this model to Thingiverse as well

Questa è la mia prima stampa che carico su Printables.com, è un USB holder semplice e minimale che ha 8 slot per le USB, non avevo trovato

nulla che mi piacesse online e allora l'ho creato io.
Le USB hanno un offset di +0.4mm per ogni lato per non farle incastrare.

P.S. ho caricato questo modello anche su Thingiverse
