Customizable and now also stackable beer crate for all types of batteries:

The AA-crate can hold 12 Batteries
The AAA-crate can hold 20 Batteries

The 9V-crate can hold 5 Batteries

The 18650-crate can hold 6 Batteries but is 18mm higher

The empty version you can chose for button cells and other small parts

The Bottom is universal, you can glue it on every of these models that these are stackable.

I use the tray in my drawer that the crates keep organized.

The best printing results you get without infill, just take the walls up till there is not infill left. With PLA no support's needed.

If you want to customize yours feel free to use my *.stp-Drawing.

Many thanks to [Jarda K 66](https://www.printables.com/de/model/149774-beer-crate-battery-holder-aa-aaa-boxes) for his design, which this one is based on:
<https://www.printables.com/de/model/149774-beer-crate-battery-holder-aa-aaa-boxes>

I would be glad to see your makes and your remixes.

This remix is based on

Beer crate battery holder AA AAA + boxes
