[flowervases](#) [flowerplanter](#) [pots](#) [flowerpots](#) [flowersvase](#)

This elegant flower pot design is **watertight**, making it perfect for holding water and flowers.

Recommended print settings:

- **Layer height:** Use either 0.28 mm for faster printing or 0.20 mm for finer detail.
- **Print mode:** Vase can also be printed in **Arachne mode** for optimal wall flow and smoother curves.

These settings ensure a strong, watertight vase while maintaining excellent print quality. Adjust scaling to suit your preferences.
