Tags: [space](#) [mechanical](#) [endeavour](#) [shuttle](#) [raketoplan](#)

This is my model of the Space shuttle Endeavour OV-105. The model is a kit and does not require any glue. It is roughly 50cm long and has several features. The cargo bay doors can be open. It has posable arm and the satellite could have the solar panels extended. It also comes with stand. The different colored parts are separated for easier printing.

In the suffix of the files, there are color codes:

w-white

d-dark

b-black

g-grey

bl-blue

go-gold

For the assembly, please have a look at the following video.
