This card tray supports sleeved cards of the mini american size. The tray supports about 40 cards per tray. The trays are stackable with the ridges on the top and the notches on the bottom. It is a tight fit so the trays wont move by themselves.

This is an in place print and is recommended to print with a 0.4mm nozzle at 0.2 layer height. I've used Bambu Lab basic PLA black to print the ones in the pictures.
