1.75mm filament clip with screw. One size fits most spools.

24 July 2019 update. Body updated with slightly rounded inner top. This will help with the filament following the shape of the spool instead of protruding outwards.

11 January 2022 update. Added screw model with longer handle and modified the clip threads to make the screw less of a tight fit.

Second Edition available here <https://www.prusaprinters.org/prints/24093-filament-clip-with-screw-se>
