Easter Flower with Eggs

Looking for a unique Easter decoration to brighten up your home? This 3D model is a fantastic addition to your spring decor collection. It features an artificial flower designed to fit into a flowerpot, with leaves that allow **passthrough integration** of Easter eggs. This creates a versatile and visually appealing decoration that lets you play with endless color combinations to match your festive spirit.

Printing Instructions:

- **Recommended Material:** PLA or PETG for durability and a polished look.

- **Layer Height:** 0.2 mm for optimal details.
- **Infill:** 15–20%, ensuring the flower structure remains sturdy.
- **Colors:** Experiment with various colors for the flower, leaves, and eggs to achieve a vibrant and festive atmosphere.

Suggestions:

Involve your family in the creative process—kids will love customizing their own Easter flower!

This model is perfect for crafting colorful variations that bring a cheerful touch to your home.

Display it on your window to share the festive spirit with passersby.

Whether you're hosting guests or just enjoying the holiday, this Easter decoration will surely stand out. Have fun and happy printing! 😊
