If you own more DualShock 4 controllers for your Sony Playstation 4, this is the perfect solution to keep them well organized.

This multiple stand is very compact and you can even place it just above the Playstation 4.

It allows easy access to the micro-USB port of each controller, so you can recharge each controller keeping them in place on the stand.

#### NEW UPDATES:

1. Added a new base to mount 3 supports for DualShock 4 controllers.
2. The bases have been redesigned to give them more robustness.
3. Now you can easily stick rubber bumpers under the base to make it more stable.
